Java

PROJECTS

B-movix

08/2022 - 09/2022 Location

I have created an Movie website using Reactjs , the main purpose for creating this application just I wanna created an movix web in which I could merge Netflix and YouTube landing page both of them in one frame, in this project I have used free movie api from TMDB site and react routers for single unit loading page , usestate, api fetch() etc..

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

WhatsApp Clone

02/2022 - 03/2022 Location

The project name is WhatsApp clone in which I can send the message and receive,, I have created this application using socket.io , using this we cane send the message to receiver on server, we send the message in group as well as!

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

NewzeMonkey

11/2022 - 12/2022 Location

This works as like newz website , where we can read daily updates of universe, I have created this application using Reactjs in which I have used free newz api why ran only in localhost it's not provided for server site !

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
